

Thought of the Month

**Is today the most amazing day of your life, or do you think next month could be so much better? I DO.
Interesting Stuff**

In the 1400`s a law set forth in England that a man was allowed to beat his wife with a stick no thicker than his thumb. Hence we have `the rule of thumb`

Many years ago in Scotland, a new game was invented. It was ruled `Gentlemen Only...Ladies Forbidden`...and thus the word **GOLF** entered into the English language.

Men can read smaller print than women can; **but** women can hear better.

If a statue in the park of a person on a horse has both front legs in the air, the person died in battle. If the horse has one front leg in the air the person died as a result of wounds received in battle. If the horse has all four legs on the ground, the person died of natural causes.

What do bulletproof vests, fire escapes, windshield wipers, and laser printers all have in common?

All were invented by women!

YOU KNOW YOU IN 2009when you accidentally enter your PIN on the microwave.

A COWBOY RIDES INTO TOWN

A cowboy rides into town and stops at the saloon for a drink. Unfortunately the locals had a habit of picking on newcomers. When he finished he found his horse had been stolen. He comes back into the bar,

Handily flips his gun into the air, catches it above his head and fires a shot into the ceiling, "**who stole my horse**" he yelled with surprising forcefulness. No one answered. "I`m going to have a beer and if my horse ain`t back outside by the time I`m finished I`m going to do what I did back in Texas" He had another beer and his horse was back. So he saddled up and started to ride out of town. The bartender wandered out of the bar and asked: "say partner, what happened in Texas?" The cowboy turned back and said "**I HAD TO WALK HOME**"

Love this one!

I wish I was a glow worm, a glow worm`s never glum.

`Cos how can you be grumpy when the sun shines out your b*m!!

Students at the Med School were receiving their first anatomy class with a real dead human body. All gathered around the surgeons table with the body covered with a white sheet. Then the Professor started the class:

"In medicine, it is necessary to have 2 important qualities as a doctor: The first is that it is necessary that you not be disgusted."

The Professor uncovered the sheet, sunk a finger in the rear of the dead body, withdrew it and sucked it. "Go ahead and do the same thing," he told his students. First the students freaked out, then hesitated and taking turns, stuck their finger in the rear of the dead body and sucked it after withdrawing it.

When everyone finished, the Professor looked at them and told them: "The second important quality is observation. I stuck the middle finger and sucked the index.

"Pay attention people!"

I`ve learned that....

Being kind is more important than being bright

I can always pray for someone when I don`t have the strength to help him in some other way

Everyone you meet deserves to be greeted with a smile

The less time I have to work with, the more things I get done

When you harbor bitterness, happiness will dock elsewhere

You never say no to a gift from a child
